

# URGENT COMMUNITY PETITION

## To Let the People of Jacksonville Decide Whether SEXUAL ORIENTATION, GENDER IDENTITY & EXPRESSION Should Be Added as New Protected Classes

### BACKGROUND:

The City Council of Jacksonville is currently moving to pass a so-called "Human Rights Ordinance" which will create **new protected classes** for the categories of sexual orientation, gender identity and gender expression.

These laws in other cities have been used as weapons to punish citizens for simply exercising their religious views and free speech within their own businesses and in private property ownership.

*These same laws are also being used to allow fully biological men – who either cross dress or subjectively claim they feel they are women – to have complete access to women’s bathrooms, showers and locker rooms.*

Another bill in the City Council proposes largely the same ordinance but would **place it on the ballot to allow the people of Jacksonville to accept or reject.**

One of these bills will pass out of the City Council. A similar bill was recently rejected in a referendum by the people in Houston, Texas.

### PETITION:

*As a citizen of Jacksonville, I want the City Council to allow the voters of Duval County to decide this controversial issue by a referendum and not to force this "Human Rights Ordinance" upon our community by a vote of only ten members of the City Council.*
